- > *Plant posts by Phil Lanni*

Pollinator Project Rogue Valley

Our vision is **safe, healthy, and thriving** pollinator habitats in every community.

We provide resources, education, connections, and volunteer opportunities to participate in the creation of this vision.

Creating gardens and landscapes for native bees, honey bees, butterflies, moths, beetles, flies, wasps, and hummingbirds are critical to saving the world.

Please join us in creating this vision.

We are a volunteer-led Oregon state-registered nonprofit.
